Community Service Packet

Identifying Meaningful Community Service Projects

To be meaningful, a community service project must:

- Address a real community need or problem.
- Prove the student had the opportunity to provide a meaningful and vital community service.
- Allow the student to gain a greater understanding of the community need on which they are working.
- Reflect the student's interests, talents, and abilities.
- Provide the student with the opportunity to grow personally and academically.
- Provide the opportunity for continuity of service and/or participation during the student's experience.

The organizations and agencies listed below typically welcome volunteers. This list should help students generate ideas for community service projects.

United Way Agencies/charities	school/public libraries
city/county governments	parks and recreations centers
civic organizations	political organization
convalescent homes/hospitals	religious organizations
cultural centers/museums	

All community service activities must be pre-approved by Ms. Romero (room 4102) to insure their choice meets the appropriate guidelines listed above. Please note that volunteering within a for-profit business does not meet the acceptable community service guidelines and will not be accepted. The following list includes examples of **unacceptable** places to do community service projects.

professional offices	industrial firms	for profit businesses
retail stores	restaurants	motel/hotels
realtors	barber/beauty shops	gas stations
doctor's offices		

NO COMMUNITY SERVICE MAY BE PERFORMED DURING SCHOOL HOURS.
