Please take the time to read some of the policies and procedures pertaining to the student's health and the role of the Athletic Training Staff:

- Students and parents/guardians must be aware that individuals whom participate in athletic activity are open to the inherent risk of injury.
- We are responsible for all aspects of the injuries, including recognition, evaluation, treatment, rehabilitation, and prevention.
- Our main purpose is to make and/or keep the athlete healthy enough to play in your games.
- Athletes are required to report any pain or injury to the Training Staff and the head coach ASAP.
- In the event that there is a **CHANGE IN MEDICAL STATUS** (illness or injury) **SINCE THE TIME THE PHYSICAL EXAM** for athletics is completed whether it is athletic or non-athletic related it is the **RESPONSIBILITY** of the athlete and/or parent to **NOTIFY** the Head Athletic Trainer as soon as possible. The student may be required to be cleared by a physician in order to return to their specific sport.
- If an athlete sees anyone on the Athletic Training Staff for any pain or injury, please understand that we need them to **FOLLOW UP** with it **AFTER THE ACTIVITY** (practice or competition) and **BEFORE HIS/HER NEXT ACTIVITY**.
- If once the student gets home, he/she starts feeling some pain; he/she should let the Athletic Training Staff and the head coach know before going to his/her next activity.
- For any injury that we treat with ice or any pain that starts when the athlete gets home, he/she should put ice on that area for twenty minutes every hour until he/she see us. **DO NOT** let the athlete fall asleep with the ice on.
- If the athlete ever has so much pain that he/she is unable to sleep, he/she should be taken to the emergency room or a doctor as soon as possible.
- If he/she does see a doctor or goes to the hospital, make sure to let the Athletic Training Staff and the head coach know ASAP.
- If an athlete is sick or injured outside of athletics and misses school or practice, make sure to let the Athletic Training Staff and the head coach know ASAP. They may need a medical clearance form from their physician in order to participate in any high school athletic activity.
- Treatment protocols given to the athlete is to be done everyday before and after activity until we change it or end it, which includes coming for treatment even if there is no practice.
- We can only provide treatment if the athlete attends school that day. All athletes are expected to be in school the day following an injury unless he/she is out seeing a physician or going to the hospital.
- No student will be seen for treatment or an injury until school is out that day.
- Showers are encouraged to receive treatment after practice. If not, they must wash off. All athletes are required to have a clean change of clothes (shorts, T-shirt, socks and sneakers) for after practice to allow them to get proper treatment.
- The Training Room Rules and Regulations are posted in the Training Room, and the Head Coach has a copy. Some quick important reminders are: no equipment, cleats, books, bags, horseplay, cell phones, personal electronic devices or profanity is permitted in the Training Room. **ALL PERSONAL ITEMS MUST BE LEFT INSIDE YOUR SECURED LOCKER.**
- No braces, support sleeves, or ace bandages are to be worn without the permission of the Training Staff or a prescription from a physician.
- Lightning is a big concern for all of us. If while practicing a coach or Athletic Training Staff sees it or if a lightning alarm sounds, we will tell the athletes to go inside the school building. They must do so as quickly as possible.

Dear Parent/Guardian (Please detach this letter),

June 2018

The Miami-Dade County Public Schools, The Kidz Neuroscience Center at the Miami Project to Cure Paralysis and Barbara Goleman Senior High School are currently implementing an innovative program for our student-athletes. This program will assist our medical team/athletic trainers in evaluating and treating head injuries (e.g., concussion). In order to better manage concussions sustained by our student-athletes, we have acquired a software tool called ImPACT (Immediate Post Concussion Assessment and Cognitive Testing). ImPACT is a computerized exam utilized in many professional, collegiate, and high school sports programs across the country to successfully diagnose and manage concussions. If an athlete is believed to have suffered a head injury during competition, ImPACT is used to help determine the severity of head injury and when the injury has fully healed.

The computerized exam is given to athletes before beginning contact sport practice or competition. This non-invasive test is set up in "video-game" type format and takes about 15-20 minutes to complete. It is simple, and actually many athletes enjoy the challenge of taking the test. Essentially, the ImPACT test is a preseason physical of the brain. It tracks information such as memory, reaction time, speed, and concentration. It, however, is not an IQ test.

If a concussion is suspected, the athlete will be required to re-take the test. Both the preseason and post-injury test data is released to the Kidz Neuroscience Center Director, to help evaluate the injury. The information gathered can also be shared with your family doctor. The test data will enable these health professionals to determine when return-to-play is appropriate and safe for the injured athlete. If an injury of this nature occurs to your child, you will be promptly contacted with all the details.

We wish to stress that the ImPACT testing procedures are non-invasive, and they pose no risks to your student-athlete. We are excited to implement this program given that it provides us the best available information for managing concussions and preventing potential brain damage that can occur with multiple concussions. The Barbara Goleman Senior High School administration, coaching, and athletic training staffs are striving to keep your child's health and safety at the forefront of the student athletic experience. In order to participate in this program please return the attached form and general Release with the appropriate signatures. If you have any further questions regarding this program please feel free to contact Barbara Goleman Senior High School, Head Athletic Trainer at (305) 362-0676 ext. 2271.

## Consent and Release from Liability Certificate for Concussions (Page 2 of 4)

This completed form must be kept on file by the school. This form is valid for 365 calendar days from the date of the most recent signature.

School: \_\_\_\_\_ School District (if applicable): \_\_\_\_\_

### Concussion Information

Concussion is a brain injury. Concussions, as well as all other head injuries, are serious. They can be caused by a bump, a twist of the head, sudden deceleration or acceleration, a blow or jolt to the head, or by a blow to another part of the body with force transmitted to the head. You can't see a concussion, and more than 90% of all concussions occur without loss of consciousness. Signs and symptoms of concussion may show up right after the injury or can take hours or days to fully appear. All concussions are potentially serious and, if not managed properly, may result in complications including brain damage and, in rare cases, even death. Even a "ding" or a bump on the head can be serious. If your child reports any symptoms of concussion, or if you notice the symptoms or signs of concussion yourself, your child should be immediately removed from play, evaluated by a medical professional and cleared by a medical doctor.

### Signs and Symptoms of a Concussion:

Concussion symptoms may appear immediately after the injury or can take several days to appear. Studies have shown that it takes on average 10-14 days or longer for symptoms to resolve and, in rare cases or if the athlete has sustained multiple concussions, the symptoms can be prolonged. Signs and symptoms of concussion can include: (not all-inclusive)

- Vacant stare or seeing stars
- Lack of awareness of surroundings
- Emotions out of proportion to circumstances (inappropriate crying or anger)
- Headache or persistent headache, nausea, vomiting
- Altered vision
- Sensitivity to light or noise
- Delayed verbal and motor responses
- Disorientation, slurred or incoherent speech
- Dizziness, including light-headedness, vertigo(spinning) or loss of equilibrium (being off balance or swimming sensation)
- Decreased coordination, reaction time
- Confusion and inability to focus attention
- Memory loss
- Sudden change in academic performance or drop in grades
- Irritability, depression, anxiety, sleep disturbances, easy fatigability
- In rare cases, loss of consciousness

### DANGERS if your child continues to play with a concussion or returns too soon:

Athletes with signs and symptoms of concussion should be removed from activity (play or practice) immediately. Continuing to play with the signs and symptoms of a concussion leaves the young athlete especially vulnerable to sustaining another concussion. Athletes who sustain a second concussion before the symptoms of the first concussion have resolved and the brain has had a chance to heal are at risk for prolonged concussion symptoms, permanent disability and even death (called "Second Impact Syndrome" where the brain swells uncontrollably). There is also evidence that multiple concussions can lead to long-term symptoms, including early dementia.

### Steps to take if you suspect your child has suffered a concussion:

Any athlete suspected of suffering a concussion should be removed from the activity immediately. No athlete may return to activity after an apparent head injury or concussion, regardless of how mild it seems or how quickly symptoms clear, without written medical clearance from an appropriate health-care professional (AHCP). In Florida, an appropriate health-care professional (AHCP) is defined as either a licensed physician (MD, as per Chapter 458, Florida Statutes), a licensed osteopathic physician (DO, as per Chapter 459, Florida Statutes). Close observation of the athlete should continue for several hours. You should also seek medical care and inform your child's coach if you think that your child may have a concussion. Remember, it's better to miss one game than to have your life changed forever. When in doubt, sit them out.

### Return to play or practice:

Following physician evaluation, the *return to activity process* requires the athlete to be completely symptom free, after which time they would complete a step-wise protocol under the supervision of a licensed athletic trainer, coach or medical professional and then, receive written medical clearance of an AHCP.

For current and up-to-date information on concussions, visit <http://www.cdc.gov/concussioninyouthsports/> or <http://www.seeingstarsfoundation.org>

### Statement of Student Athlete Responsibility

Parents and students should be aware of preliminary evidence that suggests repeat concussions, and even hits that do not cause a symptomatic concussion, may lead to abnormal brain changes which can only be seen on autopsy (known as Chronic Traumatic Encephalopathy (CTE)). There have been case reports suggesting the development of Parkinson's-like symptoms, Amyotrophic Lateral Sclerosis (ALS), severe traumatic brain injury, depression, and long term memory issues that may be related to concussion history. Further research on this topic is needed before any conclusions can be drawn.

I acknowledge the annual requirement for my child/ward to view "Concussion in Sports" at [www.nfhslearn.com](http://www.nfhslearn.com). I accept responsibility for reporting all injuries and illnesses to my parents, team doctor, athletic trainer, or coaches associated with my sport including any signs and symptoms of CONCUSSION. I have read and understand the above information on concussion. I will inform the supervising coach, athletic trainer or team physician immediately if I experience any of these symptoms or witness a teammate with these symptoms. Furthermore, I have been advised of the dangers of participation for myself and that of my child/ward.

## Sudden Cardiac Arrest and Heat-Related Illness (Page 3 of 4)

This completed form must be kept on file by the school. This form is valid for 365 calendar days from the date of the most recent signature.

School: \_\_\_\_\_ School District (if applicable): \_\_\_\_\_

### Sudden Cardiac Arrest Information

Sudden cardiac arrest is a leading cause of sports-related death. This policy provides procedures for educational requirements of all paid coaches and recommends added training. Sudden cardiac arrest is a condition in which the heart suddenly and unexpectedly stops beating. If this happens, blood stops flowing to the brain and other vital organs. SCA can cause death if it's not treated within minutes.

**Symptoms of sudden cardiac arrest include, but not limited to: sudden collapse, no pulse, no breathing.**

**Warning signs associated with sudden cardiac arrest include: fainting during exercise or activity, shortness of breath, racing heart rate, dizziness, chest pains, extreme fatigue.**

It is strongly recommended all coaches, whether paid or volunteer, are regularly trained in CPR and the use of an AED. Training is encouraged through agencies that provide hands-on training and offer certificates that include an expiration date.

Automatic external defibrillators (AEDs) are required at all FHSAA State Series games, tournaments and meets. The FHSAA also strongly recommends that they be available at all preseason and regular season events as well along with coaches/individuals trained in CPR.

#### **What to do if your student-athlete collapses:**

1. Call 911
2. Send for an AED
3. Begin compressions

### FHSAA Heat-Related Illnesses Information

People suffer heat-related illness when their bodies cannot properly cool themselves by sweating. Sweating is the body's natural air conditioning, but when a person's body temperature rises rapidly, sweating just isn't enough. Heat-related illnesses can be serious and life threatening. Very high body temperatures may damage the brain or other vital organs, and can cause disability and even death. Heat-related illnesses and deaths are preventable.

**Heat Stroke** is the most serious heat-related illness. It happens when the body's temperature rises quickly and the body cannot cool down. Heat Stroke can cause permanent disability and death.

**Heat Exhaustion** is a milder type of heat-related illness. It usually develops after a number of days in high temperature weather and not drinking enough fluids.

**Heat Cramps** usually affect people who sweat a lot during demanding activity. Sweating reduces the body's salt and moisture and can cause painful cramps, usually in the abdomen, arms, or legs. Heat cramps may also be a symptom of heat exhaustion.

#### **Who's at Risk?**

Those at highest risk include the elderly, the very young, people with mental illness and people with chronic diseases. However, even young and healthy individuals can succumb to heat if they participate in demanding physical activities during hot weather. Other conditions that can increase your risk for heat-related illness include obesity, fever, dehydration, poor circulation, sunburn, and prescription drug or alcohol use.

**By signing this agreement, I acknowledge the annual requirement for my child/ward to view both the "Sudden Cardiac Arrest" and "Heat Illness Prevention" courses at [www.nfhslearn.com](http://www.nfhslearn.com). I acknowledge that the information on Sudden Cardiac Arrest and Heat-Related Illness have been read and understood. I have been advised of the dangers of participation for myself and that of my child/ward.**

## SPORTSMANSHIP AGREEMENT

### Dear Parent/Guardians:

Your son or daughter has indicated a desire to participate in interscholastic athletics and you have expressed your willingness to permit him/her to complete. We, who are concerned with the educational development of boys and girls through athletics, feel that a properly controlled, well-organized sports program meets the students' needs for self-expression, mental alertness and physical growth. Our hope is to maintain a program that is sound in purpose and that will further each student's educational maturity.

When your son-daughter enlists in one of our sports programs, the school staff commits to the following responsibilities and obligations: 1) encourage and monitor classroom achievement; 2) provide adequate equipment and facilities; 3) provide a certified head coach; 4) provide equalized contests with skilled officials; and 5) provide adequately supervised transportation to away events when possible. It must be understood that being part of an athletic team does not guarantee a minimum amount of playing time. Head coaches and their staff will determine who will represent the school in the sport for which they are responsible. High school athletics is an extra-curricular activity that makes it a privilege to participate and not a right.

As parents you have committed yourselves to certain responsibilities and obligation as well. As a parent/guardian of a potential athlete at this school you are expected to do the following: 1) encourage your son/daughter to work hard in the classroom; 2) support our coaches' decisions or to arrange a private meeting with both the coach and/or athletic director should a conflict arise; and 3) attend as many games as possible and cheer for our school, and specifically, for your child.

Good conduct is expected on the part of all involved. Profanity and/or unnecessary comments toward student athletes, game officials, coaches and other fans will not be tolerated at any interscholastic contest. Such behavior may result in the dismissal or removal of such an offender from participation in, or attendance at school athletic events.

Please understand that college athletic scholarships are earned by meeting certain academic and athletic requirements that are set forth by the National Collegiate Athletic Association (NCAA). Guideline and information on the college recruiting process are available in the Athletic Director's Office or through the NCAA Clearinghouse.

By Signing below, I agree and understand the contents contained in this letter.
